Chris Hoppell (owner/mechanic)

Club Member Comments: Chris' business is pretty "casual/informal". He is very knowledgeable on anything British – it's his specialty, and many people in the club have used him in the past. For something straightforward and basic, he'll even come to your garage and work on it there.

Club Member Comments I have had some success with Bobby at Wrights Garage in Girard/East Springfield. He seems pretty capable and conscientious. Their price was under estimate and they were fast good on my 1953 MGTD (clutch throw out bearing).

George Tarcia

Erie, PA 16505
814-835-0363

tarcia.george@yahoo.com

Club Member Comments: George is a club member. He is not a certified mechanic but will work on any TR-6's. He still owns a 1972 TR-6 and did a body off restoration on it. He does not do bodywork but I will tackle most other mechanical repairs. Back in the 60's and 70's, he ran a Texaco service station and has worked on all his cars since then. His rates for service are very reasonable.
